Even though in the earliest times people had little or no idea how women became pregnant, there were many mechanisms and various methods used in many ancient cultures to avoid pregnancies. Many of these methods had nothing to do with sexual intercourse or the act of conceiving a baby and, obviously, had little if any effect on birth control.

Such methods were dances, amulets and rituals. Some methods, however, even if they were used without any knowledge about how to get pregnant, were ancient modifications of modern methods of birth control used even today.
